BURGLAR STOP
SECURITY SYSTEMS

We're Neighbors

25 Years Experience, Right Here in Surrey

Burglar Stop is your local provider of business and family security. For over 25 years our security experts have been designing customized security systems for homes and families just like yours, right here in Surrey. We're devoted to providing you with the best security service possible!

Burglar Stop means expertise that you can trust!

Standard Protection

Burglary Protection

You will enjoy peace of mind with our monitored security system. Simple-to-use keypad that allows you to easily control your system. What's more, we include a pet friendly motion sensor and door sensor for even greater protection.

Enhanced Protection

Life Safety Protection

Fire moves quickly and can destroy property and lives in minutes. Whether your family is at home or away, a monitored smoke detector sends a signal to the central station, so that the proper authorities can be on their way quickly.

Premium Protection

Communication and Interactive Home Service

No traditional phone line, no problem! This package includes a GSM radio that allows your system to transmit without a traditional phone line, and provides an additional path for communication in the event your phone service is disrupted by outage, ill intent or disaster.

Add remote services and be connected to your home and family from anywhere!

Want to control your system remotely, from anywhere in the world using any supported web-enabled device? Receive an email message or text if your alarm goes off, or another event occurs—for example, when your child disarms the system when they get home from school or when your employee enters a restricted area. Know that the temperature is too low before the pipes burst. Our representative can show you which applications fit your family or business.

Video Notification

Would you like to look in on your home or office when you're away? Check on elderly or infirm family members or look in on your office to be sure your staff are doing business the way you would like. Be sure the cleaning service or other workers are performing well. Our inexpensive video notification system will send pictures via text message or email to your web-enabled device when an important event occurs. Talk to our representative about how video services can enhance your lifestyle.

Options

Controller Keypad

Wireless Siren

Door/Window Transmitter

Temperature Sensor and Flood Detector

Smoke Detector

Carbon Monoxide Detector

Wireless Key

Panic Button

Why Burglar Stop

We're neighbors! Located in Surrey and with over 25 years of experience, we're devoted to providing you with the best security service possible. Our extensively trained experts design each security system and customize it to fit the specific needs of your family.

If an alarm event occurs, a trained Burglar Stop operator will handle the call so that the appropriate emergency personnel can be notified. Have a question about your system? Not only are Burglar Stop's customer service representatives just a phone call away, but you can also make an appointment to visit our security learning center to find out more about our products.

Selecting a security system may be one of the most important decisions you ever make. The system will help protect your valuables, but most importantly, it will give you a secure feeling when you sleep at night or when you are away from your home or business.
